introduction

Operating a small vehicle is a high risk activity. These vehicles are lighter, less stable and more vulnerable in a crash than other vehicles on the road. New riders are at the greatest risk of having a collision because they are unfamiliar with the controls and handling characteristics of small vehicles.

Even if you are an experienced automobile driver, when learning to ride a small vehicle, be aware that you are once again a beginner. Always ride with a safe attitude. Try to anticipate and avoid dangerous situations by riding safely. Being involved in a crash can mean a loss of income, health and possibly a life.

This handbook is a good source in understanding the rules and regulations applying to small vehicles. For other driver handbooks and to understand more about road safety and low risk driving, pick up a Basic, Motorcycle and/or Professional Driver's Handbook at an Alberta Registry Agent office or go online <http://www.infratrans.gov.ab.ca> and click on *Drivers and Vehicles*.

off-highway vehicles

(ATV, snowmobile, trail bike)

Definition according to: **TRAFFIC SAFETY ACT**

117(a): "off-highway vehicle" means any motorized mode of transportation built for cross-country travel on land, water, snow, ice or marsh or swamp land or on other natural terrain and, without limiting the generality of the foregoing, includes, when specifically designed for such travel,

- (i) 4-wheel drive vehicles
- (ii) low pressure tire vehicles
- (iii) motorcycles and related 2-wheel vehicles
- (iv) amphibious vehicles
- (v) all-terrain vehicles
- ✓(vi) miniature motor vehicles
- (vii) snow vehicles
- (viii) minibikes, and
- (ix) any other means of transportation that is propelled by any power other than muscular power or wind (but does not include motor boats)

Note: For definition and restrictions that apply to miniature vehicles and minibikes, see page 22.

Prohibited Operation: An off-highway vehicle may not be operated on any highway, road or ditch unless permission has been expressly granted. In the case of a provincial highway, the Minister may by "order" or "permit" authorize such vehicles along any portion of a highway (*Traffic Safety Act, Section 120(4)(a)(i) & (ii)*). In the case of a municipality, the council of a municipality may, through bylaw, authorize such vehicles along any portion of a highway (*Traffic Safety Act, Section 120(4)(b)*).

Note: Definition of "highway" on page 3 includes the ditches alongside the roadway.

Crossing a highway: An off-highway vehicle may be driven across a highway, including the roadway, parking lane or sidewalk portion of the highway, if the following occurs:

- The driver must stop the off-highway vehicle before crossing.
- All passengers must be off the off-highway vehicle and any vehicle or thing attached to it before the driver starts to cross the highway.
- The driver must yield the right of way to all other vehicles and persons on the highway.
- The driver must drive the most direct and shortest route of travel available.
- A licence is not required to cross a highway.
- Local guidelines may apply in municipalities, Forest Land Use Zones, Special Management Areas, areas with access management plans and other high-traffic areas.

Operator's licence:

On private land: You are not required to have a operator's licence when on private land.
(Does not meet definition of "highway" and in *Traffic Safety Act, Section 119(2)* does not require registration or insurance in these cases.)

Operator's Licence Required
NO

Off-highway operation: You are not required to have a operator's licence when operating off-highway.
(*Traffic Safety Act, Section 51(a)* states that you shall not "...drive a motor vehicle on a highway unless that person is the holder of a subsisting operator's licence." Since these are "off-highway" vehicles, this requirement does not apply.)

On-highway operation: You are required to have a operator's licence when operating on-highway.
(*Traffic Safety Act, Section 120(2)(b) & (4)* allow operation on a highway if authorized by Minister or municipality. *Operator Licensing and Vehicle Control Regulation, Section 26(1)* allows a Class 6 licence to be used for this. *Section 32(2)* allows Class 7 to be used this way. Any class of licence may be used from 1 through 7.) No licence required if just crossing a highway.

Operator's Licence Required
YES

Minimum Driving Age
14

Minimum driving age: The minimum age for operating off-highway vehicles on public land or highways is 14 years where permitted. If you are younger than 14 years, you may operate on public land with supervision by someone 18 years of age or older who is either on the same off-highway vehicle or in close proximity.

(*Off-Highway Vehicle Regulation, Section 2.*) If operating on private property, no age restriction applies.

off-highway vehicles

Registration: Off-highway vehicles must be registered before they are allowed on Alberta's roads. This applies only to public land and highways.

(Traffic Safety Act, Section 119.) No registration required if on private property.

Insurance: All off-highway vehicles must be insured if you plan to operate them on public land or highways where permitted.

(Traffic Safety Act, Section 119.) No insurance required if on private property.

Helmet: You are not required to wear a helmet unless a municipal bylaw requires helmet use. It is strongly recommended that you wear a helmet for your safety at all times.

Municipalities have the power to pass a bylaw requiring use of helmets.

(Traffic Safety Act, Section 128)

Special Laws: Please check the *Traffic Safety Act* for special laws.

(Traffic Safety Act, Sections 117 to 129 and Off-Highway Vehicle Regulation.)

Vehicle Equipment: Off-highway vehicles must be equipped with the following equipment: a headlamp, tail lamp, and a muffler.

(Off-Highway Vehicle Regulation, Sections: 5, 6, and 8.)

Accessing Trails: Off-highway operators have access to thousands of kilometres of trails in a variety of landscapes. However, not all areas are open to off-highway vehicles. Operators must ensure they are aware of restrictions and guidelines in the areas where they plan to ride.

- Permission must be obtained before riding on private property and most public lands leased for agriculture.
- Off-highway vehicles are generally prohibited from parks, protected areas and natural areas.

Shared use and respect: Many areas are shared with other recreational and industrial land users. Off-highway vehicle operators can promote respect and reduce conflict with others with simple practices.

- Yield the trail to non-motorized traffic (such as horses, hikers, cyclists, skiers).
- Keep engine volume and vehicle speed low when near other users.
- Respect soil and vegetation reclamation efforts.
- Pack out all trash and litter.

Environment: Off-highway vehicles are capable of causing long-term disturbance to soil, water, vegetation, fish and wildlife. Wet and alpine areas are particularly at risk. Help reduce damage by doing the following.

- Ride on existing trails. Whenever possible, ride when the trails are dry.
- Stay out of streams and wetlands.
- Steer clear of wildlife and sensitive habitats.
- Keep skidding and spinning to a minimum.
- Keep machines clean to reduce weed transfer and prevent overheating which can lead to a fire.

Safety: Mud, water, slick surfaces, and rough terrain increase the chance of a crash. Emergency response time may be longer in remote areas.

- Tell someone where you are going and check in with them on your return.
- Ride within your abilities.
- Ride with others.
- Use safety equipment. Carry emergency tools and supplies.
- Keep your machine in good repair.
- Travel responsibly and share the trail.

prohibited miniature vehicles

Prohibited Operation: These vehicles are motor vehicles as defined in the *Traffic Safety Act*, however they also meet the definition of "miniature vehicles" which are not permitted on a highway in Alberta, including sidewalks alongside the roadway. While many of these motorized vehicles will be used in a pedestrian-like manner, the operators of these vehicles do not meet the legal definition of "pedestrian".

Permitted Operation: Miniature vehicles may not be operated on a highway in Alberta; they may only be operated on private property. The definition of "highway" on page 3 of this document includes privately owned places that the public is ordinarily entitled or permitted to use for the passage or parking of vehicles, for example shopping mall parking lots.

In law, these vehicles meet the definition of a motor vehicle, however they do not fit the definitions of mobility aid, motorcycle or pedestrian.

TRAFFIC SAFETY ACT

Section 1(x): "motor vehicle" means

- (i) a vehicle propelled by any power other than muscular power, or
- (ii) a moped but does not include a bicycle, a power bicycle, an aircraft, an implement of husbandry or a motor vehicle that runs on rails.

Section 1(v): "mobility aid" means a device used to facilitate the transport, in a normal seated orientation, of a person with a physical disability.

Section 1(w): "motorcycle" means a motor vehicle, other than a moped, that is mounted on 2 or 3 wheels and includes those motor vehicles known in the automotive trade as motorcycles and scooters.

Section 1(gg): "pedestrian" means

- (i) a person on foot
- (ii) a person in or on a mobility aid and includes those persons designated by regulation as pedestrians.

Section 52(1): Except as otherwise permitted under this Act, a person shall not operate a motor vehicle or trailer on a highway unless there is a subsisting certificate of registration issued in respect of that vehicle.

Miniature Vehicle definition according to:

- (2) In this section, "miniature vehicle" means a go cart, a 3 or 4-wheeled vehicle of less than standard size, a golf cart, a 3 or 4-wheeled vehicle that the registrar considers would present a hazard to other highway users because of its novel size or operating characteristics or a vehicle referred to in subsection (3) or (4).
- (3) An off highway vehicle is a miniature vehicle if it has 3 or 4 wheels and is less than standard size.
- (4) A motorcycle or moped that has the following is a miniature vehicle:
 - (a) a seat height of less than 70 centimetres when there is no load
 - (b) a wheel rim diameter of less than 25 centimetres
 - (c) a wheel base of less than 100 centimetres when measured from the centre of one axle to the centre of the other axle.
